IT'S A BEAUTIFUL WORLD

आDHYAK

DESIGNER PRINTS • SIX TEXTURES

INDIA

www.aadhyak.com

Fabric printing is not a new process; in fact, it's been around for centuries. Ancient civilisations used colour and design to set themselves apart and created fabrics that looked charming and unique.

We take printing as an art form combined with engineering, and dyeing technology to produce images that existed only in the textile designer's mind.

At Adhyaak, we have a wide variety of prints which are made by applying the best of textile engineering to high-quality fabrics.
